

Student Experience of Teaching (SET) Surveys

Question Personalization Guide 09-18-2025

Below is a step-by-step guide for accessing and creating/editing your personalized questions for your courses.

If you are still having trouble, please reach out via the SET email: seteaching@uconn.edu

1. Accessing your question personalization task in Blue

Every semester you will be sent an automated e-mail with a link taking you to the SET webpage where you can login to Blue to access your question personalization tasks. However, if for some reason you don't receive this e-mail, or if you are unable to find it in your inbox you can access the tasks directly by logging into SET Blue with your UConn NetID or email and password directly here: <https://blueapp.uconn.edu/>

If you are having trouble logging in, please see our troubleshooting steps here:

<https://bpir.uconn.edu/home/institutional-research/set/set-support-resources/>

Once logged in, you will be able to see your active tasks which you can now access.

The screenshot displays the 'My Home' dashboard of the SET Blue application. At the top, a dark blue header bar contains a 'Welcome' message, a user profile icon, and buttons for 'English' and 'Sign Out'. Below the header, the 'My Home' section is divided into two main panels: 'Tasks' and 'Reports'. The 'Tasks' panel shows a search bar, a filter dropdown set to 'All', and a 'Reset' button. Below this, it indicates '1 of 1 (filtered from 1 tasks)' and lists a single task titled 'FNCE' with a date of 'Fri, Jun 14, 2024 11:59 PM'. The 'Reports' panel also features a search bar, a filter dropdown set to 'All', and a 'Reset' button. It shows '0 of 0 (filtered from 0 tasks)' and includes a 'Show child reports' toggle switch. At the bottom, there are tabs for 'Current' and 'Archived', with 'Current' being the active tab. A message at the bottom center states 'No reports found'.

2. Open your question personalization task

Click on the course you would like to edit, and you will be brought to this page. From here you can click on “Customize” to begin adding or editing a custom question.

3. Enter your custom question

Enter your question, and when you are finished click the small “x” at the top right of the dialogue box.

The image shows a 'Question editor' dialog box with a dark blue background. The dialog box has a title bar with 'Question editor' in blue text and a close button (a small 'x' in a circle) in the top right corner. Below the title bar, there is a blue tab labeled 'English'. The main content area is divided into two sections: 'Question' and 'Response'. The 'Question' section has a text input field with the placeholder text 'Enter your custom question here!' and a small 'x' icon in the top right corner of the field. The 'Response' section has a larger text input field with the placeholder text 'Enter comments here...'.

4. Save your changes!

Make sure that once you are done editing your questions that you click BOTH “Save” and “Submit” at the top right corner of the task screen. If you don’t do this and you leave the page, none of your changes will be saved.

5. Including/Excluding Questions

You will notice there is a slider next to each question where you can “Include” or “Exclude” your questions in the survey. Created questions are included by default, but if you change your mind and decide you want to drop one of the questions but not add a new one in its place you can just change the option to “Exclude”

6. Finished!

After saving and submitting your question changes, you are free to leave the page. You will have the ability to come back to this task at any time in the window in which it is active and make changes (typically the one to two weeks preceding the surveys being sent out are your open window).
