Blue Viewing Archived Reports Guide 09-23-2025

Viewing Archived Reports

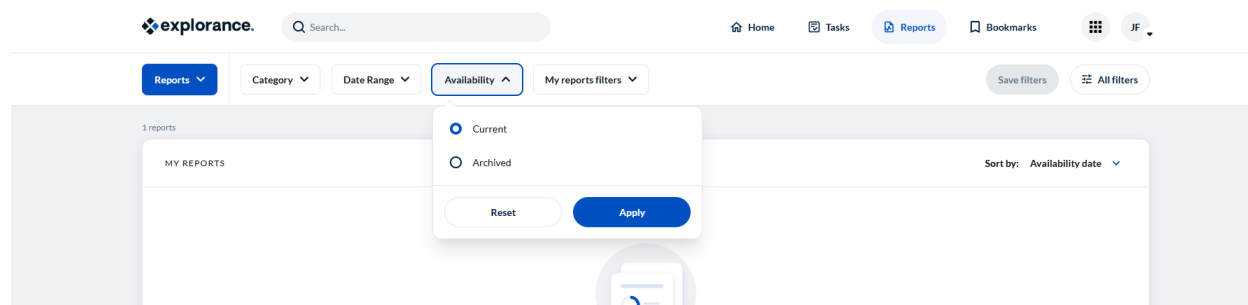

Click this link and log in with your UConn NetID or email and password <https://blueapp.uconn.edu/>

Your home page after logging in should now look like this:

The new homepage provides a snapshot of your current tasks and available reports, however in order to view all of your reports most effectively, navigate to the “Reports” tab circled in red above at the top right of your interface.

Once here, you will see a collection of filters you can use to narrow down which reports you want to access. Most importantly is the “Availability” dropdown menu which will allow you to toggle between Current and Archived reports. Any reports older than the current term and the one previous will be Archived.

If you are still having trouble accessing your reports after this guide, please reach out to seteaching@uconn.edu
